

Planetarium Activities • February, March & April, 2020

ArtWalk Astronomy

Look for the planetarium's telescope during ArtWalk! Weather permitting, we'll start with Venus until it sets behind buildings and then look at the nearly full moon.

Date: Saturday, February 8

Time: 6:00 - 8:00 p.m.

Location: Parc Sans Souci near the fountain

Ages: All welcome

Cost: Free!

International Day of Planetariums

March 8, 2020, is the International Day of Planetariums, celebrated in domes around the world. We'll be open!

Sun-Earth Day

Sun-Earth Day is a day of learning about the sun and its effects on Earth, celebrated every year around the March equinox. Weather permitting, a solar telescope will be set up behind the Museum at the corner of Polk and Congress Streets for safe viewing of the sun.

Dates: Saturday, March 21

Times: 10:30 a.m. - 12:30 p.m.

Location: Lafayette Science Museum

Ages: All welcome

Fee: Free!

Globe at Night - at Home!

Globe at Night is a worldwide study of light pollution and its effect on the night sky. By making and reporting simple observations of well-known constellations from your home, you can provide some of the data scientists need. There are worldwide Globe at Night campaigns every month, and the next dates are February 14 – 23, March 14 – 24, and April 14 – 23. For further information and to download a Family Activity Packet suitable for families and school classes, go to the Globe at Night web site at <http://www.globeatnight.org/>.

The Telescope Line and Facebook

If the weather's bad, has a telescope viewing been cancelled? Call 337-291-5544 during Museum hours to find out! Cancellations will also be announced on the Lafayette Science Museum Facebook page.
